| City and Borough of Anchorage |) | |

Sharon K. Phillips, being first duly sworn upon oath, deposes and states as follows under penalty of perjury:

I am over the age of 18 years, of sound mind, and competent to testify to the following facts based on personal knowledge. I am an Alaska resident of 28 years and a registered voter.

I request inclusion of the following addendums to my earlier affidavits and for the process of challenging the unethical &/or illegal handling of Election 2010:

1. In-depth research into the reasoning for the State of Alaska Division of Election move of the official write-in count from November 18, 2010 (deadline for all mailed and overseas ballots to be received) to a full 8 days earlier on November 10, 2010 without just cause should be investigated.

My belief is that this move took place, in order to complete all ballot counts prior to Ted Stevens Birthday Celebration and to provide Lisa an opportunity to grandstand (claiming full victory) at a public event. The Annual AFN Conference requested Murkowski give a 20-minute speech after cancelling the debate between Joe Miller and Scott McAdams to convenience Lisa. Then she took over an hour of political banter (pushing speaking schedules way back & upsetting many people in the process).

The SOA DOE moved the count, knowing the SOA and Murkowski Campaign had strong fiscal and physical support for immediately beginning the process in Juneau (deadline of Ted Stevens Birthday). Yet, they intentionally disregarded the human, organizational and financial struggles this would cause the Miller Campaign and its volunteers. The SOA, but especially the SOA DOE is negligent in its equal treatment of and overall responsibilities to ALL of the Alaskan populace. The SOA DOE made management decisions proving to be deferential to one party showing strong support for and to the Murkowski Campaign. I believe it is legal to delay a vote count, but not to move it up and the date announced weeks before the vote count should have remained. The earlier date change was very short notice. I was present for and personally witnessed this, along with dozens of other individuals.

2. Investigation into what led up to the AFN becoming involved when there had been no official claims or legal filings by the Miller Campaign that any native votes were under consideration for being challenged or discounted.

I have a possible connection to why the AFN lawsuit was filed intervening in the Senate Race, filed on November 15, 2010 – "insisting write-ins be perfect disenfranchises voters; endangering the voting rights of some Alaska Natives and of citizens with conditions that might have made it hard to cast a perfect write-in ballot for Lisa Murkowski."

Bonnie Jack (Murkowski Campaign) worked with me at table 12 all day November 13, 2010. As part of my 11/16/10 affidavit; I was concerned about the authenticity of the secure handling of 7 ballot packages, which had not followed appropriate DOE chain of custody processes. These communities were 40-004 Anaktuvuk Pass; 40-006 Atqasuk; 40-010 Browerville; 40-012 Buckland; 40-016 Kaktovik; 40-024 Kotzebue; 40-034 Point Lay.

I brought full attention to DOE management, the table poll workers, and Ms. Jack that I was concerned about the security and chain of custody of the ballot envelops, due to the missing signatures. Most district envelopes processed at various tables had two to four signatures. Ms. Jack took strong note of the fact that I was writing notes on each district to include the missing signatures and more. Ms. Jack left for Anchorage a few hours after she finished working the table with me (late Friday) and by Monday morning, the lawsuit was filed in court. I believe this could have been a catalyst, as she was upset I was challenging the lack of DOE chain of custody for villages. There should not be exceptions in statewide or national elections, as following law is required per SOA statutes and DOE regulations. State and National law should apply to all parties equally, not be based on race. I have many native members of my own family and question base on equality of treatment for all ballots, district packages, and legal processing of the electoral vote.

- 3. I request investigation into the lack of records provided to any write-in count observer, proving "each and every" case where an individual required additional support in filling out their ballot. Is there not some form of record that is to be maintained by the Division of Elections, so that hundreds of signature or print replications that were observed can be explained (one on top of the other)?
- 4. I request investigation into the assignment of Goldbelt Security Services being tasked, contracted, assigned to guard the electoral ballots, as the corporation is beholding to Lisa Murkowski and there was an extreme conflict of interest of an ethical nature that the SOA DOE should have taken into strong consideration as they made this determination and made arrangements not considered biased in nature.

Further affiant sayeth naught.
